

Pure Genius!

"If we change our times with the sole intent of increasing the amount of daylight we receive, that's an extra hour of sunshine that will warm the planet. That's one extra hour per day of extra heat warming our already unstable planet.

We need to repeal Daylight Savings Time as a primary measure to decrease the rate of climate change. Fewer hours of sunshine equal less heat hitting Earth's surface. We're running out of time!"

**CAN I ASK A
STUPID QUESTION?**

A close-up photograph of Donald Trump. He is wearing a dark blue suit, a white shirt, and a red tie with diagonal stripes. He is smiling and looking slightly to the right. A microphone is visible in the bottom right corner.

**What does Rep. Alexandria Ocasio-Cortez
and a turtle on a post have in common**

- You know she didn't get there by herself.
 - She doesn't belong there.
 - She doesn't have any idea what to do now that she is there.
- You wonder who thought it was a good idea to put her there in the first place.
 - She is elevated to a position beyond her capabilities.

A close-up photograph of a woman with dark hair pulled back, looking directly at the camera with a wide-eyed, open-mouthed expression of shock or disbelief. Her eyebrows are raised, and her skin appears slightly flushed. The background is a plain, neutral-toned wall.

**TELL YOU HOW
TO DO ANYTHING**

He can stay, he can go. He can be impeached,
or voted out in 2020. But removing Trump
will not remove the infrastructure of an entire
party that embraced him; the dark money that
funded him; the online radicalization that
drummed his army; nor the racism he
amplified and reanimated.
