-Not NIJ certified

-As of now costs \$1,153-\$1,504 from pewpewsolutions.com, \$1,323-\$1,709 per plate from sierratac.com, or \$1397-\$1592 per plate from trex-arms.com

ESAPI Level IV or IV+ ICW Plates:

8.75" Wide by 11.75" Tall ~22 by 30 cm.	~4.75 lbs. 2.2 kg.
9.5" Wide by 12.5" Tall ~24 by 32 cm.	~5.45 lbs. 2.5 kg.
10" by 13" ~25 by 33 cm.	~6.25 lbs. 2.8 kg.
11" by 14" ~28 by 36 cm.	~7.1 lbs. 3.2 kg.

-Not NIJ certified, but intended to pass US military requirements

-SAPI sizes S-XL

-IIIA or mil-spec ballistic backer needed for proper mitigation of backface deformation of higher tier threats (M2 AP, B32, M80A1)

-Later revisions G, J, and H rated to stop M995 at 3,350fps

-Risky because plates usually “fell off the truck”, may be used and may be broken upon arrival, but for a chance of a IV+ plate, it is the best option. Delamination is also a concern with older plates

-As of now they cost ~\$200-\$500 per plate, can be found in the used section of places to get armor

Spook plates:

Body armor plates that defend against higher threats and/or are extremely advanced do exist such as:

-Ceradyne Defender 275

-Gen I-III BALCS Plates

-XSAPI/ECSAPI Plates

-Ceradyne Models AA1-AA4

-Ceradyne 83608, 93765, 96448, 92547, 80571, 96034

-LTC 28550, 28575, 28595

These plates usually are composed of very high tier materials and advanced construction such as enriched boron carbide ceramics. They are VERY difficult to find. Some are able to stop advanced armor penetrating threats such as M995, 7.62x54R BS-41, M993, and other similar tungsten-core projectiles.

Side Armor Options

Notes:

- Side armor is also nice to have to protect against projectiles. I have heard that it prevents proper ventilation and the user overheats easily though.
- Side armor plates can not be directly NIJ 0101.06 certified. They can however be made from a cut of an NIJ .06 certified plate though.
- These options usually require an additional carrier if they cannot be directly integrated into the plate carrier or armor vest.
- Side plates are usually found in sizes 6" x 6" to 7" x 8".

Level IIIA Side Armor Options

SKD Armor Cumberbund Inserts:

- Come in 3 sizes; size 1 is 5.5" x 7", size 2 is 5.5" x 9", size 3 is 5.5" x 11"
- Intended to work with ICW side armor
- As of now costs \$110-\$130 from skdtac.com

Crye Side Soft Armor Insert:

- Comes in sizes 1 and 2; size 1 is 6" x 6" and size 2 is 6" x 9"
- Intended to work with ICW side armor
- As of now costs \$48.90 or \$67.80 from cryeprecision.com

Hoplite 19301:

- 6" x 8"
- 0.6 lbs
- 0.35" thick
- Not flexible

ESBI Level IV or IV+ ICW Plates:

(Couldn't find weight sadly, but they are decently lightweight)

-6" x 6", 6" x 8", and 7" x 8" sizes available

-Intended to pass US military requirements

-IIIA or mil-spec ballistic backer needed for proper mitigation of backface deformation

-0.98" thick

-Later revisions rated to stop M995 at 3,350fps

-Risky because plates usually "fell off the truck", may be used and may be broken upon arrival, but for a chance of a IV+ side plate, it is the best option. Delamination is also a concern with older plates

-As of now they cost ~\$100-\$200 per plate from the used section of places to buy armor

Spook Side Plates:

The only spook side plate that I can think of is the XSBI plate, which has identical protection to the XSAPI plate. I'm sure there's some SOCOM special contract one's floating around there. I would put the MSAP plate above next to ESBI plates but I won't because it's not as easily accessible to civilians as the ESBI, so I'm putting it here.

The MSAP plate was developed as an auxiliary piece that can attach to many different needed carriers. It is a stand alone plate that can reportedly stop M995 at full velocity, so just above standard IV plates.

Tools

GoPro Hero7 Black:

This is the tool that would live stream the attack on Twitch. I chose Twitch because:

1. It was compatible with live streaming for free and all people with the internet could watch and record. On FaceBook it seems like you have to have an account to watch live videos.
- 2: A previous attack was recorded on Twitch (Halle Synagogue Shooting) that lasted about 35 minutes, which for me shows that there is enough time to capture everything important. This may not work as intended if it's reported and taken down early.
- 3: I could also live stream the twitch livestream on Discord, where many people could also watch and hopefully record the live stream. They would be able to read and download these writings as well.

This is a decent recording device that has the ability to livestream, and so it works for me. I will be recording at 720P so the video may have delays but at least it will look decent

Better options:

Well maybe I could've used a better GoPro such as one of the newer models but I don't think that I could have a better livestream simply because of the limit on my data speeds.

iPhone 11:

I will be using this to livestream the gopro footage onto my twitch account. I will also be using this to upload all my posts and such. Since my family uses Spectrum I upgraded to the Unlimited Plus option which should allow for better video streaming. This will be in my right front trousers pocket.

Better options:

None, there isn't anything more I needed from this phone. That is unless some other phone has better upload speeds.

Gerber Strap Cutter:

Just in case I need it, it's not that heavy, and it might help me out in a sticky situation. It came with the JFAK anyway and it's not like it'll hurt by carrying it. This will be in my left front trouser pocket

Better options:

It would probably be better if I had a pouch on my plate carrier or on my belt so that this is more accessible to me. It's already a great tool for its intended purpose. However, trauma shears may be a better option.

Cheap Foldable Mossy Oak Knife:

This has been my standard utility knife for a while, and it works for cutting, what else is there to say? Well actually it's not like a dedicated fighting knife so there's one point off. This will be most useful if my gun fails or is somehow incapable of shooting, or if my gun is displaced from me, I have another means of defense against any attackers. I will have this in between the MOLLE straps on the left side of my plate carrier.

Better options:

The most common use for a knife is not as a fighting weapon but as a cutting tool. Since I'm not going to be innawoods I'm probably not going to be able to use it in any way but as a fighting tool. A better option may include the Spartan Blades CQB Tool.

Gerber Multitool:

I've had this for many years and it has always worked for me. Most likely won't need it though. I will have this in my right back trousers pocket.

Better options:

Nothing beats the ol' trusty leatherman.

Sony SRS-XB13 Speaker:

To be honest I know nothing of quality speakers and I didn't even bother to look them up. One day I realized I needed a speaker so I went to Best Buy and picked out the cheapest one. Looking back at this I probably should've looked up good speakers but oh well. I tested this multiple times in my car and it seems to be loud enough for me. This will be attached via the radio loop on the left side of my plate carrier.

(NOTE: I may not use this because I have found that I can't reliably play music and livestream through my phone at the same time. If I don't find some other electronic device to use then I will have to go without music.)

Better options:

A better option may include the JBL Flip 4 Waterproof Portable Bluetooth Speaker. I recently learned from a pawn shop that JBL is apparently one of the best speaker companies out there with superb audio quality, bass, and all that.

ABU JFAK:

Here's the list of all my medical equipment:

- 2x CAT-7 tourniquets, (1 in each front trouser pocket)
- 2x H&H H Bandages
- 2x Eye Cups
- 2x Quik Clot Combat Gauze
- 1x Black Nitrile Gloves (cringe I know)
- 2x H&H Compressed Gauze
- Lubricating Jelly and Nasopharyngeal Airway Tube
- H&H Sterile Burn Dressing
- 2x USMC HyFin Chest Seal Combo Pack (expired by 8 months)
- Small Black Sharpie
- Small roll of duct tape
- 1 TCCC Card
- Bunch of spongebob band aids

This should cover the many threats I might face after being shot at or wounded in some way. I have thought if I happened to shoot a lone police officer and he went down I might run over and treat him with a HyFin vent combo or something. I put this and 2 tourniquet pouches on my plate carrier

Better options:

I probably could've used better tourniquet mounting solutions that attached to my plate carrier or belt. Non-expired Hyfin's would be nice, and you can't go wrong with carrying a decompression needle. Many of the companies below also have tourniquet carrier pouches. Decide which is best for you and your applications. I believe you should have a full IFAK kit just in case, so if you're wondering what you should get, just use the medical equipment I have.

IFAK carrier list:

Surplus USGI IFAK pouch w/ insert - \$10-\$20
Beez Combat Systems IFAK pouch - \$30
AWS 50735 IFAK pouch - \$30
T-Rex Arms MED1 pouch - \$45
Tactical Tailor Rogue IFAK pouch - \$53-\$60
HSGI ReVive medical pouch - \$76
Ferro Concepts roll 1 trauma pouch - \$85
LBT small blow-out kit pouch - \$85
Blue Force Gear Trauma Kit NOW! options - \$45-\$100
HSGI ReFlex IFAK system - \$106

It's important to note that actual training is needed to use these medical items. For me, I watched many youtube videos and practiced with the tourniquet, but I wish I had some actual training :/

Attire/Clothing:

Many good options for this kind of stuff, check YouTube for other recommendations. I sourced Garand Thumb for many of these.

Sordin Supreme Pro-X LED w/ Leather Headband:

Before I bought this, I had a Walkers Pro Digital headset that I would use whenever I went shooting. Problems started when I got my helmet in the mail. I removed the center pad and adjusted the remaining pads to fit the headset, and I would put on the headset, then the helmet, then buckle the chinstrap. The top most part of the Walker's would come in contact with the helmet, thus squeezing it onto my head VERY tightly. Although it did work to cover my ears, it was VERY uncomfortable on my head, gave me headaches, and disrupted my thinking with pain. Thus I decided to upgrade to Sordin's. These sordins cut out a lot of space on the top most part of the ear cup, which allowed contact but not enough to squeeze my head. This current setup with the ear pro under the helmet is comfortable and is a great upgrade to the walkers with better sound reproducibility, more comfortable gel ear cups, and an LED light. I chose the leather headband variant because according to this video I watched on Youtube:

https://www.youtube.com/watch?v=OvvLSUJAf4U&ab_channel=Reconbrothers

The leather headband is less comfortable than the fabric headband, but fits under helmets while the fabric one does not. I have also thought about getting the behind the head variant which also may fit under the helmet, but decided not to because I thought the rear strap may interfere with the H-NAPE suspension part of my helmet, or the helmet itself. After I bought the leather band headset, I learned that the behind the head variant may have worked under the helmet. The LED on the headset is not critical to my mission but it is a nice-add on.

Better options:

There's many active hearing protection headsets that are decent. The Sordin Supreme Pro X seems to be the gold standard for a non communications headset. Communication equipment was not important because I am a lone attacker. Make sure to get decent lithium batteries, they just work better for this application than alkaline or rechargeables. If I were to configure my ear pro differently, maybe I get the behind the neck variant and install Noisefighters gel ear pads.

Notes:

-Gunshots are loud, especially indoors, protect your ears properly if possible. I recommend using high NRR ear plugs and earmuffs whenever shooting. For active headsets, the noise perceived will always be less when wearing earplugs, unless the active hearing protection you're wearing is the Ops-Core AMP.

-Passive ear protection is great and cheap, but active headsets are preferred for actual combat use.

-Slim hearing protection/communication headsets are preferred to larger headsets because it is easier to aim rifles that way. These do tend to have a lower noise reduction rating (NRR) though.

-Headset's such as the Walkers Razor or Howard Leight do not comfortably fit under full cut helmets, this is due to their large size at the top of the ear muffs. They may properly fit with helmet adaptors to a high cut helmet though.

-Gel ear cups are preferred to foam ear cups because they are more comfortable and create a better seal with eye protection. Walkers make their own gel cups to fit their headsets for about \$20. NoiseFighters Sightline is a great option and fits nearly all headset's, these have a cutout for straight-style glasses so that the seal isn't broken, which increases comfortability and NRR. Gel cups may reduce NRR by itself due to the fact that the gel used isn't as noise absorbing as the foam used in ear cups.

-Communication ready headsets use a fixed or detachable down lead (sometimes two) and are capable of hooking up to a radio system.

Low-End Headset's:

Walkers Razor models: \$40-\$150

Howard Leight Impact Sport models: \$50-\$120

Peltor Sport models: \$50-\$180

Similar Non-Communication Options:

Sordin Supreme Pro X models: \$220-\$300

Safariland Liberator II HP: \$300

Swatcom Active 8: \$350-\$400

Otto NoizeBarrier Range SA: \$400

Communication Ready Options/Better Options:

Comtac III/Comtac XP: \$300-\$600

Comtac V: \$600-\$800

Otto NoiseBarrier TAC: \$665

Liberator II: \$750-\$850

Comtac VI: \$750-\$1200

Ops-Core AMP: \$1080

2x Walker's Foam Ear Plugs:

The only reason I put foam ear plugs underneath my headset was to decrease noise perceived. My ears are already mildly damaged from shooting guns without ear protection so doubling up when shooting is very important to me. Loud noises already give me severe pain so I think it would be best if I reduced my perceived noise as much as reasonably possible

Better options:

These foam ear plugs already fit my ear canal and have a high NRR, so there isn't much that can be improved on with the earplugs. However with the Ops-Core AMP, there is an option to use them with NFMI plugs that amplify the noise perceived through the headset while also increasing the total NRR.

Oakley M-Frame Alpha w/ clear inserts:

Before I bought this I had this standard Peltor over the glasses ear protection. The problem with this was that the temple of the glasses was quite thick, and this made it uncomfortable to use under ear pro. Plus when securely attached to my head it would fog up very easily, especially when I started exercising, so often I would have to take them off and wipe them down. I chose the M-Frame Alpha because the temple was very thin which allowed it to be used comfortably under my sordins, and it had a small opening in the top of the lenses that allowed for ventilation when moving. The anti-fog solution that came with the eye pro also worked very well when I tested it. I will not be using the strap because I want the option to take them off quickly if need be. The most important part of this was that it was ballistically rated, which is important so I wouldn't get any particles in my eye that would blind me.

Notes:

-You don't have to spend a lot on ballistic glasses, in reality the cheaper Z87+ rated glasses with thin temples work great.

-Only straight temple glasses work with the Noisefighter's gel ear pads.

-Get some decent anti-fog solution as well, your spit doesn't count.

-If you need corrective lenses, there are inserts you can get to go behind your ballistic glasses. For example ESS makes the U-RX insert, which is compatible with many glasses.

Ballistic Glasses List:

Basic 3M safety glasses: \$10-\$30

Surplus Revision Sawfly glasses: \$20-\$40

Surplus ESS Crossbow glasses: \$30-\$40

Surplus Wiley X series glasses: \$40-\$60
Ballistic Z87+ Pit Vipers: \$110
Magpul series: \$100-\$140
Oakley Tombstone: \$150
Oakley M-frame series: \$60-\$200
Smith Elite series: \$80-\$240

Large Multicam or OCP Army Combat Shirt:

I was going to wear just a standard t-shirt for this, but decided it's better to use an actual combat shirt. I like this quite a lot actually, it's very comfortable against my skin and allows for great ventilation.

Combat shirt notes:

- Combat shirt's are generally made of a nylon cotton mixed material with ripstop on the sleeves and a nylon material on the torso, which allows for ventilation and is more durable than other types of material. This material is typically flame resistant but there are add-on's that can be flame retardant. They are designed specifically to allow free range of movement.
- High collar shirts are preferred because chafing with a plate carrier or a sling can occur without it. This might not seem that big of a deal but it will be if it continuously happens and you end up getting an untreated infection on your neck.
- Higher quality combat shirts don't glow under NVG's, this is simply due to the material used.
- Some combat shirts have pockets on the sleeves which can hold all your trash.

Combat Shirt List:

Surplus US Army combat shirts: \$20-40
Surplus USMC MARPAT FROG combat shirt: \$40-\$120
First Tactical Defender: \$100
Vertex Recon combat shirt: \$110
Drifire FR combat shirt: \$120
Crye Precision G3 Combat Shirt: \$150-\$180
UF PRO Striker series: \$150-\$164
Crye Precision G4 Combat Shirt: \$185
Arc'teryx LEAF Gen II Assault Shirt: \$270

Oakley Tan Factory Pilot 2.0 Gloves:

For me, it's the Oakley assault gloves. I just think they look the best out of all other gloves. If you aren't trying to look cool, what the fuck are you even doing? They do prohibit my dexterity a bit, and provide unnecessary protection for my attack. Also the stitching seems to be a bit weak, I ripped the area between my first finger and thumb quite quickly. But then again I was hip firing these gloves shooting 3" waterfowl loads. I probably didn't need the carbon fiber

knuckles but whatever it's a good aesthetic. What I didn't realize until I got it was that these were manufactured in Cambodia, which I dislike because of the dangers of outsourcing products.

Better options:

If I could do this again I would stay away from these gloves and instead try the PIG Alpha FR gloves because I need the heat protection (un free floated handguard) and because I think it looks cool.

Glove notes:

- The entire purpose for gloves is so you don't hurt your hands. Whether it be from sharp materials or very hot objects. Leather grips are preferred when handling hot materials.
- Modern gloves also have decent grips so you don't slip when touching whatever you need to touch.
- Fingerless gloves also exist and are usually more dexterous than full fingered gloves, at the cost of protection.

Decent Glove List:

Nomex Flight Gloves: \$15-\$20

Mechanic M-PACT: \$20-\$30

Oakley SI series: \$25-\$30

Mechanix FastFit: \$10-\$30

Magpul series: \$30-\$65

Oakley Factory Pilot (Assault): \$40-\$60

PIG FDT series: \$50-\$80

Crye Precision JPC 2.0 Multicam Black w/ AVS Detachable Flap:

Well I wanted a plate carrier that wasn't absolute garbage and after some time I decided with this one. The Crye JPC 2.0 seems to be the standard for plate carriers and has great options for attaching equipment and such. Multicam black was chosen for obvious reasons, and the AVS detachable flap allowed for me to attach my triple mag pouch.

Better options:

For a basic plate carrier setup like the one I expect to have, I really don't need anything more of the plate carrier. In fact, if I could do this again I would still choose the Crye JPC 2.0.

Plate Carrier Notes:

- Some plate carriers have various attachment points to attach front panels/placards, dangles, backpacks, or auxiliary pieces such as groin protectors, deltoid protectors, and neck protectors.
- Most plate carriers are primarily made of 500D Cordura, 1000D Cordura, or a combination of these items. The difference between the below plate carriers and the cheaper options usually are the material used, stretchability, the stitching, and the plate carrier design.
- Padding is important when running plates without decent back padding, such as the L210. Some plate carriers use a type of foam padding to separate the plate from the body, as well as to aid in ventilation.

- Some armor carriers can carry BALCS armor vests and armor plates at the same time.
- MOLLE vs laser cut: MOLLE options are typically more durable and easier to repair the laser cut options, but laser cut usually allows for more placement options and weighs less. Both are great options for holding your pouches and such.
- LBE's can be used instead if you aren't using a plate carrier or other armor carrier system.

Blackhawk Black Kryptek Closed Triple Magazine Pouch:

I bought this at Jimays Flea Market in May 2021 for \$3 because I thought it looked cool, and it actually ended up being quite a secure magazine pouch to fit my magazines.

Better options:

Since I don't need the protection and coverage of a closed top magazine pouch, I would prefer using a decent open top or kangaroo pouch. If I could choose I would probably go with the Tactical Tailor Fight Light 5.56 Triple Mag Panel, with maybe two Esstac Kywi pouches at the left side of my plate carrier.

Magazine Carrier Notes:

-There's many good options out there. From least to most secure the list goes from open top > kangaroo > closed top, and in reverse is the list of accessibility.

-Double stack magazine pouches are useful for holding mags but they do extend quite far out, especially with body armor, so going prone may not be possible.

-Magazine carriers with plastic on the outside make noise when bumped into.

M4 Open-Top Magazine Carriers:

Single Magazine:

Tactical Tailor Fight Light: \$20
Esstac KYWI: \$23-\$33
G-CODE Scorpion: \$25
ITW FastMag: \$30
Eagle Industries series: \$30-\$34
Beez Combat Systems GRIDLOK: \$31
Beez Combat Systems ARES: \$37
HSGI TACO or Duty series: \$39

Ferro Concepts KTS: \$75
Esstac Kywi Triple: \$65-\$86
HSGI Taco series: \$107-\$133

M4 Closed-Top Magazine Carriers:

Single Magazine:

Beez Combat Systems GRIDLOK: \$30
HSGI TACO Covered: \$49

Triple Magazine

Surplus USGI magazine pouch: \$10
WTF Accessory Panel 04: \$64
Blue Force Gear Triple: \$70
Blue Force Gear Flapped Ten-Speed: \$80
Crye Precision AVS Detachable Flap: \$101

2x Black Sun Patches:

Good aesthetic on my multicam black plate carrier :)

Better options:

For me, none. In my opinion patches are the best way to tell if someone's a friendly or not. If you don't have meme patches you are the meme, so get some. You can get patches from amazon, etsy, tacticaloutfitters, ect... Or you can even make your own.

XL Hanes Boxer Briefs:

My mom bought this for me when I used to be a size 38" waist, but now that I've shrunk they are quite large for me. The reason why I still have them is that I just never tried to get new ones. Made of polyester.

Better options:

I would probably choose Meriwool boxer briefs if I could because of wool's great properties. If you can't wear wool then polyester or nylon options seem fine, be warned most options unless it specifically says it is FR will melt.

Boxer Brief Options:

Duluth Trading Go Buck Naked: \$23

Meriwool 160 Boxer Briefs: \$27

Patagonia Sender Boxer Briefs: \$30

Exofficio Give-N-Go 2.0 Boxer Briefs: \$20-\$32

Smartwool Merino Sport Boxer Briefs: \$35

Massif Breeze: \$42

Honorable Mention: Surplus USMC Tier 1 PUG w/ soft armor inserts: \$25-\$50

M81 Large Regular Trousers:

Right now I'm about a size 34-35 waist so these tend to be a bit big on my waist. But that's fixed easily by tightening the side straps and by wearing a belt. These are a bit baggy compared to newer options but still works great because I can move in all positions without being restricted. Made of 50/50 NYCO.

Better options:

-Just like the combat shirt, there's many reasons why a person would want to have combat pants.

-The top tier pants are made of a NYCO ripstop material, have large reinforced belt loops, have many pockets, may have knee pad integration, may be flame resistant, and most importantly allows the user to have maximum free movement.

-Nylon cotton blends are preferred due to their durability and breathability. The most common blend is the 50/50 NYCO (nylon/cotton) blend.

-Ripstop refers to squares of nylon or polyester threads on the pants, these help to reduce major tearing.

-Most of the below options have large reinforced belt loops to hold battle belts

-Kneepads are not a meme. They will save your knees in case you kneel on a rock, or have to kneel for an extended amount of time.

-Learn to sew, no pants are indestructible and may need repairs overtime. To truly get the maximum lifespan out of your pants, you will need this skill.

Trouser Options:

Most US or European military pants: \$20-\$60

USMC surplus FROG trousers: \$40-\$100

Khul options: \$100

First Tactical Defender: \$100-\$160

FjallRaven Vidda Pro: \$165

UF PRO Striker series: \$218-\$301
Massif Advanced Quarter Zip Combat Shirt: \$229
Arc'teryx LEAF Assault Pant gen II: \$252
Crye Precision G3 Combat Pants: \$274
Crye Precision G4 Combat Pants: \$279 or \$346 (flame resistant)
Massif Hellman: \$363

Surplus Rigger Tan 499 Belt:

Since my trousers are a bit large on me and don't fit properly even with the side straps tightened, I'll need a belt. I would use my leather belt instead but I found that after exercising it gives me uncomfortable hotspots. I would attach my JFAK to my belt but unfortunately it doesn't work when sitting in my car.

Better options:

Modern taticool belts are very strong and have the ability to attach gear, holsters and pouches. These type belts are quite thick and will only work with thick belt loops seen in many military style trousers. If I could redo my belt setup for this attack, perhaps I would pick a AWS LAB belt with 1 open top 5.56 magazine pouch and 2 tourniquet pouches.

Belt Options:

Surplus Eagle Industries War Belt w/ suspenders: \$50
AWS 50725 LAB belt: \$74
T.Rex Arms Orion Outer Belt: \$80-\$110
ESSTAC Enhanced Shooter's Belt: \$110
AXL Eclipse belt: \$115
Raptor Tactical ODIN belt MK III: \$117
TYR Tactical Gunfighter belt: \$125
Arc'teryx LEAF H150 Riggers Belt: \$129
Crye Precision Range belt: \$135
Eagle Industries Operators gun belt: \$108-\$141
AWS 50771 SMU belt: \$148
Crye Precision MRB 2.0: \$151
Ronin SENSHI belt: \$188-\$193
Ferro Concepts Bison belt: \$215
S&S modular belt (complete set) \$224
Blue Force Gear CHLK belt: \$250
GBRS Group Assaulter Belt System V2: \$255

2x Darn Tough T4021 Socks:

I've had some really bad socks before in my life. One of them was a pair of thick cotton Mossy Oak socks that I bought for \$5 at Jimays Flea Market. The problem with these is that they

would constantly bunch up at the front and give me blisters on my toes. Another pair of socks I had that sucked were a pair of brushed polyester Field and Stream socks that always fell down to my ankle because of poor sock design. I decided to do some research so I can use a decent pair of socks and I found Darn Tough. I bought these socks on eBay because that's the only place I could find that had the correct size and I couldn't be more satisfied. I fell in a frozen creek twice with these socks on and saturated my feet with near frozen water and yet they still kept my feet warm. 10/10 so much better than the cotton socks I've been wearing all this time.

Better option:

There aren't many options when it comes to better socks really. If I could redo this again I would pick the same socks.

Sock Options:

USMC surplus Cavu by Ellsworth socks: \$6-\$15

Ballston: \$15

Meri Wool Socks: \$16

People's Socks: \$20

Smartwool: \$16-\$26

Ellsworth: \$21-\$26

Kavu Moonwalk: \$25

Darn Tough: \$20-\$32

Belleville Steel Toed Boots Size 12.0 W (C790 ST I think):

To be honest these boots are actually not that bad. They are quite heavy and give me shin splints often but for the protection it offers against dropped objects and water it is quite decent. I bought these at Jimays Flea Market for \$30 in 2021 and they are my best pair of boots that I have.

Better options:

Preferably I would have a lighter nylon boot, but in all honestly these boots aren't too bad. If I could do this again maybe I would get the Salomon Quest 4D

Boot notes:

- Waterproofing and breathable materials are preferred for obvious reasons.
- Every company uses a different foot to size their boots, so if possible try and go to an in-person store and try on their boots, then buy them cheaper online.
- Steel toed boots are nice but make the boot considerably heavier.
- Preferably you would have boots that covered your ankle's so you don't accidentally roll them, but then again you may not be traversing rough terrain.
- Boots are just one of those things that wear out considerably over time.
- Make sure to wear your thickest winter socks when you try out cold weather boots
- In reality most surplus military boots suck, they are usually heavy and uncomfortable, but they do work most of the time.

Temperate/Hot Boot Options:

Most European military boots: \$15-\$60
USGI surplus jungle boots \$15-\$40
Belleville USGI surplus boots: \$20-\$80
USMC surplus rat boots: \$50-\$80
Surplus Oakley SI Assault boots: \$60-\$120
GORUCK MACV-1 series boots: \$120-\$160
Merrell MOAB series boots: \$120-\$170
Lowa Innox Pro series: \$175-\$235
Lowa Zephyr series: \$200-\$250
Salomon Quest 4D: \$280
Asolo Fugitive GTX: \$285

Cold Weather Boot Options

USGI N-1B Mukluk boots w/ liner: \$20-\$60
USAF Belleville 675 surplus boots: \$25-\$90
USGI black or white mickey mouse boots: \$50-\$150
Salomon Quest Winter: \$180
Merrell Thermo series: \$126-\$220
Lowa Ottawa GTX: \$250
Asolo Arctic GV: \$300
Lowa Tibet Superwarm GTX: \$460

Gear Tier List:

Here's my tier list of gear, do whatever you want with it.

Shit tier/airsoft:

Emerson
IDOGEAR
Condor
Rothco
Flash Force Industries
Field & Stream/Realtree/Mossy Oak
AR500
Spartan Armor
Amazon/Wish/unbranded eBay/Aliexpress

Decent enough for actual use:

Most US BDU's or European surplus military gear
Eagle Industries
5.11
Blackhawk

Most importantly you should actually train in your gear, because the fact is you WILL change your loadout multiple times before you find the one that works for you.

Also you don't have to have the gucciest gear to be a good fighter, because the fact is, gucci gear will not make you a better shooter or pretend soldier. You can still be very decent even with low-tier gear.

Messages To Various Groups

To Conservatives

Ask yourself, truly, what has modern conservatism managed to conserve? What does it seek to conserve? The natural environment? Western culture? Ethnic autonomy? Religion? The nation? The race? Nothing is conserved. The natural environment is industrialized, pulverized and commoditized. Western culture is trivialized, pulped and blended into a smear of meaningless nothing, with the only tenets and beliefs seemingly held to are the myth of the individual, the value of work (productivity for the benefit of your capitalist owners) and the sovereignty of private property (to ensure none of us get grand ideas of taking the unearned wealth of our owners).

Ethnic autonomy? Destroyed in the name of cheap labor, whilst they may publicly object to the illegal immigration of the third world masses, privately they push for as much migration as possible, anything to decrease the labor cost of production and line their pockets with the profits. They removed the Europeans peoples autonomy and sovereignty for their own lust for power and wealth. Religion? What remains? Empty churches and full shopping centers? Drive through confessionals and no fault divorce? Any religious ideal that stood between the wealthy and wealthy generation was downplayed, sidelined and quietly dismantled. All so that they could line their pockets without complaints or objections.

The nation? What nations do we have to conserve? What are our own nations now based on? There is no shared culture, ethnicity, language, values or beliefs. Anyone can be a member of our nation, as long as they have the paperwork. They need not be born here, share our race, our language, our culture or our beliefs. Hear the conservatives cry, as long as they are willing to WORK, let them in! Let them earn our wealthy benefactors their second yachts and their fifth properties!

The race? They don't even BELIEVE in the race, they don't even have the gall to say race exists. And above all they don't even care if it does. It's profit, and profit alone that drives them, all else is secondary. The notion of a racial future or destiny is as foreign to them as social responsibilities.

Not a thing has been conserved other than corporate profits and the ever increasing wealth of the 1% that exploit the people for their own benefit. Conservatism is dead. Thank god. Now let us bury it and move on to something of worth.

CONSERVATISM IS DEAD, THANK GOD.

To Leftists

“Leftists tend to hate anything that has an image of being strong, good and successful. They hate America, they hate Western civilization, they hate white males, they hate rationality. The reasons that leftists give for hating the West, etc. clearly do not correspond with their real motives. They SAY they hate the West because it is warlike, imperialistic, sexist, ethnocentric and so forth, but where these same faults appear in socialist countries or in primitive cultures, the leftist finds excuses for them, or at best he GRUDGINGLY admits that they exist; whereas he ENTHUSIASTICALLY points out (and often greatly exaggerates) these faults where they appear in Western civilization. Thus it is clear that these faults are not the leftist’s real motive for hating America and the West. He hates America and the West because they are strong and successful.”

Leftists usually advocate for equality among all people. The problem with this is that we are not all the same. Take for example the common black man, on average he is 15 IQ points behind the average White man. Is it reasonable to allocate more resources and time just for him, so he has the chance of being equal to the White man? Through all the resources we’ve spent to try and allow blacks to be equal to whites, they will always be prohibited by their genetics. How many more trillions of dollars are we going to spend on blacks before we realize that it is futile?

I think leftism will always have great intentions but as a result will slow progress down considerably, or even reverse progress made. Modern leftism aims to create problems that don’t actually exist, like patriarchy and white supremacy. Ask yourself what have progressive’s progressed? Teaching white children to hate themselves and their blood? Teaching non-whites to hate our people? Teaching that it’s OK for anyone to be anything, no matter the consequences? Leftism only brings down our society.

LEFTISM RESULTS IN A DEGENERATE HATEFUL SOCIETY

To non-whites on White lands

Leave while you still can, as long as the White man lives you will never be safe here.

General Thoughts

Who is truly to blame?

The people who are to blame most are ourselves, European men. Strong men do not get ethnically replaced, strong men do not allow their culture to degrade, strong men do not allow their people to die. Weak men have created this situation and strong men are needed to fix it.

STRONG MEN MUST RISE UP

The rape of European women by invaders

Many of you may already know about the rape of British women by the invading forces, Rotherham of course being the most well known case. But what few know is that Rotherham is just one of an ongoing trend of rape and molestation perpetrated by these non-white scum.

A list of wikipedia entries from the most well known British rape cases follows:

https://en.wikipedia.org/wiki/Rotherham_child_sexual_exploitation_scandal

https://en.wikipedia.org/wiki/Aylesbury_child_sex_abuse_ring

https://en.wikipedia.org/wiki/Banbury_child_sex_abuse_ring

https://en.wikipedia.org/wiki/Oxford_child_sex_abuse_ring

https://en.wikipedia.org/wiki/Peterborough_sex_abuse_case

https://en.wikipedia.org/wiki/Telford_child_sexual_exploitation_scandal

What many do not know is that these cases do not solely occur in Britain, but elsewhere in the Western world as well, as shown by these two well known cases in Australia:

https://en.wikipedia.org/wiki/Ashfield_gang_rapes

https://en.wikipedia.org/wiki/Sydney_gang_rapes

And even in Finland:

https://en.wikipedia.org/wiki/Oulu_child_sexual_exploitation_scandal

The true number of these events perpetrated across the Western world is unknown and certainly under reported, as both the state, the media and the judicial system work in unison to hide these atrocities, in the fear that knowledge of these events would enrage the native people of the West and damage the perception of our new “Multicultural utopia”. Finally I would like to send a message to the perpetrators of these attacks, and their families. You will hang. If you are released we will find you and kill you, if you are in prison we will reach you there, if you try to hide these rapist scum we will kill you as well. For the disgrace you have heaped upon the European people and the distress you have caused to European women, you will die.

KILL THE RAPISTS, HANG THEIR FAMILIES

Diversity is weak

Why is diversity said to be our greatest strength? Does anyone even ask why? It is spoken like a mantra and repeated ad infinitum “diversity is our greatest strength, diversity is our greatest strength, diversity is our greatest strength...”. Said throughout the media, spoken by politicians, educators and celebrities. But no one ever seems to give a reason why.

What gives a nation strength? And how does diversity increase that strength? What part of diversity causes this increase in strength? No one can give an answer.

Meanwhile the “diverse” nations across the world are scenes of endless social, political, religious and ethnic conflict. The United States is one of the most diverse nations on Earth, and they are about an inch away from tearing each other to pieces. Brazil with all its racial diversity is completely fractured as a nation, where people cannot get along and separate and self segregate whenever possible. South Africa with all its “diversity” is turning into a bloody backwater as its diversity increases, black on black, black on white, white on black, black on Indian, doesn’t matter, its ethnicity vs ethnicity. They all turn on each other in the end. Why is it that what gives Western nations strength is not what gives Eastern nations (China, Japan, Taiwan, South Korea) their strength? How are they so strong, China set to be the world's most dominant nation in this century, whilst lacking diversity? Why is that their non-diverse nations do so much better than our own, and on so many different metrics?

Diversity is not a strength. Unity, purpose, trust, traditions, nationalism and racial nationalism is what provides strength. Everything else is just a catchphrase.

DIVERSITY IS WEAKNESS, UNITY IS STRENGTH

Radicalization of western men

The radicalization of young Western men is not just unavoidable, but inevitable. It should come as no shock that European men, in every nation, and on every continent are turning to radical notions and methods to combat the social and moral decay of their nations and the continued ethnic replacement of their people.

Radical, explosive action is the only desired, and required, response to an attempted genocide. These men and women are not being brain-washed, corrupted or misled. They are finally removing their blindfolds and seeing the reality of the world and their peoples' future.

The truth is that the West killed the notion of god, and proceeded to replace it with nothing. Brought forth two competing ideologies (communism and fascism) to replace this loss of god, then proceeded to allow both sides to slaughter each other to a standstill and then let corporate backed capitalists tear the survivor to pieces. Resulting in a society with no core beliefs, no purpose and no vision for the future. A society of rampant nihilism, consumerism and individualism, where every individual is a competitor and the rights of the individual override all

notions of responsibility. In this hell the individual is all and the race is worthless, something to rail against and use whenever possible, a power structure to climb, or topple.

The truth that they are rapidly becoming, not just a global minority, but a minority within their own lands.

The truth that they are left, alone, an individual in a society worshipping the cult of the individual, to respond against an influx of outsiders from all corners of the world. Enemies bound by faith, culture or tradition with higher levels of fertility, trust and in group preference resulting in much stronger communities.

The truth that they are expected not to combat these myriad, unending and dedicated interlopers, but to embrace them, accept their own disenfranchisement, accept the loss of their fathers lands, their own impoverishment, their own REPLACEMENT.

But they will not accept this death. This eradication of their people, their culture, their very soul.

They see the decay all around them, plummeting, free-falling birth rates all across the Western world. Millions of invaders landing on our shores, conquering our towns and without a single shot fired in response. Broken families with soaring divorce rates, that's if they even bother to get married at all. Suicide rates climbing year by year, not just for adults, by even teens and children as well and the only time people seem to even notice is when one of their own idols commits the act (singers, sports stars, actors). Drug use at all levels of society, in all age groups, any source of distraction or relief to escape a culture of nihilism. Rampant urbanization and industrialization, ever expanding cities and shrinking forests, a complete removal of man from nature, with the obvious results. Pedophile politicians, pedophile priests and pedophile pop stars, demonstrating to all the true depravity of our age. Art and beauty subverted beyond all recognition, bauhaus travesties replacing nouveau wonders, soulless metropolitan architecture of glass and steel reflecting no society, no culture, no people and therefore belonging everywhere, and nowhere. Suicidal, nihilistic and degenerate pop icons produced from a dead culture: Michael Jackson (pedophile, self hating, self mutilating, opiod addict), Madonna (degenerate, drug addict, childless, whore, anti-christian, pro miscegenation), Kurt Cobain (suicidal, drug addict, self hater, anti-social), Freddy Mercury (lifelong identity crisis, lifelong battle with hedonism and drug use, eventual death due to sexual hedonism) just to name a few. Empty nurseries, full casinos, empty churches and full mosques, entropy in blitz speed. Politicians write in the same ink as Eligabulus, worshipping all that is foreign, poisonous and subversive. So these young men and women see this suicidal nihilism and isolate themselves from this mainstream, "multicultural", egalitarian, individualistic insanity and look for allies anywhere they can find them, in the flesh or online. They congregate, discuss, despair, strategize, debate and plan. They decry weakness, mock fecklessness and worship strength, and in this worship of strength they radicalize and find the solution.

Somehow this isolation then radicalization is seen as a surprise, yet for anyone who was paying attention, it was a long time coming. Once the corporate and state media's grip on the zeitgeist of modernity was finally broken by the internet, true freedom of thought and discussion

flourished and the overton window was not just shifted, but shattered. All possibilities of expression and belief were open to be taught, discussed and spoken. This open and often anonymous discussion allowed for information, outside of the states and the corporation control, to be accessed often for the first time. The result is obvious. People are finding their way home. Finding their people, finding their traditions, seeing through the lies of history, the brainwashing of the institutions and they are angry, they are energized and yes, against their degenerate societies, they are radicalized.

RADICALIZATION IS THE ONLY RATIONAL RESPONSE TO DEGENERATION

The failure of assimilation

Expecting immigrants to assimilate to a decadent culture is laughable. Who would willingly leave their own strong, dominant and rising culture to join an elderly, decaying, degenerate culture? What culture would entice a man, one of traditions, beauty, architecture, art and prosperity, or a culture of decay, self-hatred, childlessness, disorder and nihilism?

More immigrants are choosing to retain their own healthy culture, year by year, and even more telling, our own people are beginning to join them, looking outside their own watered down and deteriorating culture to look for purpose and guidance from outside sources.

The weaker we become the more immigrants will refuse to join us, refuse to partake in the cultural suicide that we extol. That should surprise no one.

NO ONE WILL WILLFULLY JOIN THE DECAY

Problem with virtual relationships and porn

A virtual relationship includes many things. One of my favorite examples is those found in sites like OnlyFans and Twitch. On OnlyFans, people (mostly men) can pay to talk to and see nudes of people of their choosing. And on Twitch, there's many cam girls, hot tub streamers, ect that make their living by having a virtual relationship with their viewers. These viewers will often pay money to have their name signed on their leg or be called out by that specific person. The problem with this is that it discourages actual relationships with actual people, which actively prevents births of the new generation. The same thing applies with porn, when one is able to have a virtual relationship with an actor or simulate having sex whenever they feel like it, what encourages them to go out to have a real relationship?

This is only one of the reasons for the decay of the White race. This must be managed and controlled, or discouraged heavily.

STOP WATCHING PORN, STOP CONTRIBUTING TO THE DECAY

Dissatisfaction in current society

I feel that many people these days are very dissatisfied with their life. They live the same boring lifestyle followed by routine. They may awake early in the morning, work until 5, and play video games, watch movies or tv, or have a beer before bed. They will follow this routine

for years, often doing very little to change their lives. The problem here is not with industrial society, (although it originates from it) but with the ease of conformity to this lifestyle. They will refuse to take new activities or action in their life not because they are in fear or anxious but because it is simply easier not to.

One quote that really stuck with me is from *Into the Wild* by Jon Krakauer, when he wrote “So many people live within unhappy circumstances and yet will not take the initiative to change their situation because they are conditioned to a life of security, conformity, and conservatism, all of which may appear to give one peace of mind, but in reality nothing is more damaging to the adventurous spirit within a man than a secure future. The very basic core of a man’s spirit is his passion for adventure. The joy of life comes from our encounters with new experiences, and hence there is no greater joy than to have an endlessly changing horizon, for each day to have a new and different sun.”

You will have to leave the conformity of a routined life if you want to achieve true happiness and satisfaction.

DON'T BE AFRAID OF CHANGE

Don't let yourselves be disarmed

After my attack, I suspect that gun control policies will be brought forth to the state and federal government. Calls to ban high-capacity magazines, assault weapons including AR-15's, and even items such as body armor are expected. You must not let them pass these laws, if the civilian population becomes disarmed, the military and elite will be able to control all. No matter what Joe Biden tells you, fighter jets and nuclear weapons can not control the civilian population. I found a cypasta that explains this quite well:

“Listen, you fantastically goofy motherfucker. I'm going to try to explain this so that you can understand it.

You cannot control an entire country and its people with jets, tanks, battleships, and drones, or any of these things that you so stupidly believe trumps citizen ownership of firearms.

A fighter jet, tank, drone, battleship, or whatever cannot stand on street corners and enforce "no assembly" edicts. A fighter jet cannot kick down your door at 3AM and search your house for contraband.

None of these things can maintain the needed police state to completely subjugate and enslave the people of a nation. Those weapons are for decimating, flattening, and glassing large areas and many people at once, and fighting other state militaries. The government does not want to kill all of its people, and blow up its own infrastructure. These are the very things they need to be tyrannical assholes in the first place. If they decide to turn everything outside of Washington D.C. into glowing green glass, they would be the absolute rulers of a big, worthless, radioactive pile of shit.

Police are needed to maintain a police state. Boots on the ground. And no matter how many police you have on the ground, they will always be vastly outnumbered by civilians, which

is why in a police state it is vital that your police have automatic weapons while the people have nothing but their limp dicks and their soy latte.

But, when every random pedestrian could have a Glock in their waistband, and every random homeowner has an AR-15 by the door, all of that goes out the fucking window because now the police are outnumbered and face the reality of bullets coming back at them.

If you want living examples of this, look at every insurgency that the US military has tried to destroy. They're all still kicking with nothing but AK-47s, pick-up trucks, and improvised explosives because these big scary military monsters you keep alluding to are all but fucking useless for dealing with them.

Dumb. Fuck."

In the US, items such as short barreled rifles, short barreled shotguns, suppressors and automatic weapons are already heavily regulated. In states like New York and California, high capacity magazines are banned from legally being sold and assault style weapons are highly regulated.

We cannot let them take anymore. We must actively fight for our rights of gun ownership.

THE LAST DEFENSE AGAINST TYRANNY ARE THE PEOPLE'S WEAPONS

Green nationalism is the only true nationalism

There is no conservatism without nature, there is no nationalism without environmentalism, the natural environment of our lands shaped us just as we shaped it. We were born from our lands and our own culture was molded by these same lands. The protection and preservation of these lands is of the same importance as the protection and preservation of our own ideals and beliefs.

For too long we have allowed the left to co-opt the environmentalist movement to serve their own needs. The left has controlled all discussion regarding environmental preservation whilst simultaneously presiding over the continued destruction of the natural environment itself through mass immigration and uncontrolled urbanization, whilst offering no true solution to either issue. There is no Green future with never ending population growth, the ideal green world cannot exist in a world of 100 billion, 50 billion, or even 10 billion people. Continued immigration into Europe is environmental warfare and ultimately destructive to nature itself. The Europe of the future is not one of concrete and steel, smog and wires but a place of forests, lakes, mountains and meadows. Not a place where English is the de facto language but a place where every European language, belief and tradition is valued. Each nation and each ethnicity was molded by their own environment and if they are to be protected so must their own environments.

THERE IS NO TRADITIONALISM WITHOUT ENVIRONMENTALISM

Kill high profile enemies

There are well known enemies of our nations, enemies of our race that freely walk through our societies, heads held high, believing themselves untouchable. They will soon find out how wrong they truly are. Traitors deserve a traitor's death. No matter if it takes 3 years or 30 years, these people must pay for their disgusting attacks upon our race.

TATP packages strapped to drones, an EFP in motorcycle saddle bags, convoy ambush rammings with cement trucks. Any method that gives these traitors their sure reward is viable and should be encouraged. Where there is a will, there is a way.

George Soros, the billionaire responsible for his attacks on the West. He attacks the average person's wealth by shorting entire currencies. His funding for the radical left is majorly responsible for the destruction of our White culture. It is no question that he is one of the Jews that is attempting the new world order.

Erdogan, the leader of one of the oldest enemies of our people, and the leader of the largest islamic group within Europe. This warlord must bleed his last, whilst he visits his ethnic soldiers currently occupying Europe. His death will also drive a wedge between the Turk invaders currently occupying our lands and the ethnic European people whilst simultaneously weakening Turkey's hold on the region, removing a prime enemy of Russia and destabilizing and fracturing NATO.

Sadiq Khan, The current mayor of London at the time of writing, an open sign of the disenfranchisement and ethnic replacement of the British people in the British isles. This Pakistani muslim invader now sits as representative for the people of London. Londinium, the very heart of the British isles. What better sign of the white rebirth than the removal of this invader?

KILL GEORGE SOROS, KILL ERDOGAN, KILL SADIQ KHAN

The paradox of the diverse equality

The greatest joke of all is the quixotic foolishness of the diverse but equal society. Diversity by its very definition belies equality. No two different things can ever truly be equal, especially humans. There is no one person equal to any other, not identical twins, not countrymen, not workers within a class group and certainly not those of differing races. Every human is worth only their own value, no more or less.

The more diverse a group becomes, the less equal it becomes. Diversity is anathema to equality. One cannot exist with the other.

DIVERSITY IS UNEQUAL, HIERARCHIES ARE CERTAIN

The present is a gift from those in our past

Your ancestors did not sweat, bleed and die in the name of a multicultural, egalitarian nation. They built homes for their children to live in, they built communities for their people to thrive in, they built nations for their people to survive in. They slaved for a better future for their people, and now other peoples shake their fists and point their fingers, reprimanding us for living better lives, wealthier lives in wealthier countries. This wealth and prosperity was paid for in the sweat and blood of your ancestors. Our present comfortable, privileged and prosperous life was gifted to us by our forebears, with the belief that we would maintain, cherish and even expand upon their work, so that one day our own children can enjoy the rewards of our labor.

We must strive to create a nation worthy of our ancestors, that we give our people the very best lives, and nations that are worthy of them. A nation that venerates its ancestors, but lives for its offspring.

VENERATE THE ANCESTORS BUT WORK FOR THE CHILDREN

A soldiers fight

The ideal of a heroic war, without loss, without failure, without some great setback, is idealistic and downright impossible. Even at Vienna in 1683 we Europeans still lost over fourteen thousand good men. That was during a triumphant VICTORY. Do you believe you are better than these men? More deserving of life? More skilled and courageous? You are not. If they could die, so can you. Expect death, expect struggle, expect loss that you will never forget. Do not expect to survive, the only thing you should expect is a true war and to die the death of a true soldier.

EXPECT A SOLDIERS FIGHT AND A SOLDIER'S DEATH

The danger of the invader

If you were to kill sixty armed invaders having shown the will and the intent to bring harm to your nation and people, you would be hailed a hero, given your nation's highest civilian honors, paraded before the media and the adoring public. But kill sixty unarmed invaders having shown the will and the intent to bring harm to your nation and people, and you will be considered a monster, dragged through the streets, ridiculed, attacked, your character assassinated in every way it can be and finally tried in court and imprisoned for the rest of your life.

But here's the real kicker, the unarmed invader is far more dangerous to our people than the armed invader. We can fight the armed invader, we know how, we have the ability, we have the soldiers and arms to do so. But the unarmed invader, we have no real idea on how to deal with them, we are unable to attack them or fend them off in any meaningful way.

Both would seek to destroy our nation, both would seek to displace and replace our people, both would seek to destroy our culture and nationhood. But only one has the ability and only one has shown to be effective at doing so.

THE UNARMED INVADER IS MORE DANGEROUS THAN THE ARMED

The lightning march through the institution

While the left's march through the institutions was long and ultimately successful we must achieve the same, but in a much shorter time period. Due to the threat of ethnic replacement and our own horribly low birth rates, we do not have 150 years or even 50 years to achieve positions of power. We must be intrinsically leveraged into the political, militaristic, judicial, educational and economic institutions, all within 25 years.

We do not have the luxury of time like the left had, we must be ready to act, and act soon. That means those that can, or have the ability should look to ingrain themselves into these institutions and climb as far up the power hierarchy as possible, in the shortest time possible. When the time comes, you must be ready to act.

BLITZ TO DOMINANT POSITIONS

All true movements are populist movements

While the movement itself, at least in the vanguard stage, does not need to have the support of the entire population, eventually we will need our people to join our new society, and voluntarily. They must be willing and wishing to be a part of this new future we envision. We cannot, and should not, rely on oppression to encourage the population to fit this new paradigm.

Through our own actions and speech we shall show them a new path. A path focusing on nature and respect for the environment, traditions, families, workers rights and personal and racial responsibilities. We must excel, both personally and as a society.

Whilst we may use edgy humor and memes in the vanguard stage, and to attract a young audience, eventually we will need to show the reality of our thoughts and our more serious intents and wishes for the future. For now we appeal to the anger and black comedic nature of the present, but eventually we will need to show the warmth and genuine love we have for our people.

SHOW THEM THE WAY FORWARD

There is no sheltered meadow

There is nowhere left to run, turn around, face your enemy, make your stand. There is not a single place left where the tendrils of replacement migration have not touched. There is no single place in the West that is even close to reaching replacement level birth rates, let alone birthrates that indicate a level of vitality and vigor.

There is no pleasant meadow in which you can lay down your weary body, rest your head and wait for it all to blow over. You will find no reprieve, not in Iceland, not in Poland, not in New Zealand, not in Argentina, not in Ukraine, not anywhere in the world.

Nor should you, why should you have peace when your other brothers in Europe face certain war? Why should you risk nothing whilst others risk all? Why should others fight for you if you are not willing to fight for yourself?

Don't run from the fight, run towards the fight. Look to the heart of the conflict, march yourself there, press yourself into service. Give your everything to your people.

STOP RUNNING, START FIGHTING

Don't leave the cities, run towards the fight, not away

Run towards the cities, run towards the conflict, run towards the enemy, fleeing from the enemy is cowardice. The countryside are already ours, as they have always been. The people of the countryside are already traditional, already close to nature, already supportive of their people.

It's the cities where the struggle lies, it's the cities where the invaders have massed, it's the cities where the marxists have poisoned the institutions, it's the cities where the traitorous media and corporations lie and it's the cities where the anti-white politicians and the NGOs make their homes.

Invade the cities, take the cities, battle in the streets for the cities. The cities are the economic, judicial, political, ethnic and cultural battleground of our people and it is there we shall wage our war.

The countryside can wait, the cities need you, your youth needs you. Despite how many of you may feel living amongst the pollution, amongst the cultural filth, crammed into tiny apartments in the city sprawls, far flung from man's natural environment. But it is there our future will be made and it is there the battle for our peoples future will be fought.

RETAKE THE CITIES, RETAKE YOUR BIRTHRIGHT

Emotions influence more than facts

Stop trying to persuade the general population with statistics, charts, tablets and figures. A one-point-seven percentage point difference may mean something to a few, but an ingeniously worded expression or brilliantly crafted poster will convince the many.

Humans are emotional, they are driven by emotions, guided by emotions and seek emotion expressions and experiences. Monotonous repetition of immigration facts and statistics will simply bore the masses, and drive the people away from the stale and uninspired speakers that propagate them.

Be creative, be expressive, be emotional and above all be passionate. These are the things that speak to people, connect people, drive people. Paint, write, sing, dance, recite poetry. Hell, even meme. Create memes, post memes, and spread memes. Memes have done more for the ethno-nationalist movement than any manifesto.

Above all, just don't be stale, placid and boring. No one is inspired by Jeb Bush.

BE PASSIONATE, NOT PLACID

No profits for anti-Whites

For too long those who have profited most from the importation of cheap labor have gone unpunished. The economic elites who line their pockets with the profit received from our own ethnic replacement. These greed filled bastards expect to replace our people with a race of low intellect, low agency, muddled, muddied masses just so their own wealth and power can increase.

They will soon realize there are repercussions to being a race traitor. These repercussions will hit them hard, fast and without mercy. If they flee we will follow them, if they hide we will find them, if they try to shield themselves behind the state we will break through and reach them.

If an individual is in ownership or control of a corporation or business, and advocates or even accepts the mass importation of non-whites to replace the native European populations, then that traitor must be destroyed.

KILL YOUR LOCAL ANTI-WHITE CEO

Protect your people, remove the poison

Poison sellers and toxin spreaders are free to proliferate their baneful products completely unchecked by law or society. Each year these degenerates are responsible for tens of thousands of deaths, in our own cities and across the globe.

Both illegal and legal drug dealers are our racial enemies, ruining the health, wealth, family structure, culture and future of our people. These peddlers of filth are active in every nation and behave without any thought of their impact on their societies.

Find where they are in your cities, plan your attack, destroy them. Protect your people and protect your children. Be the antidote to their poison.

KILL YOUR LOCAL DRUG DEALER

Europe for Europeans

The invaders must be removed from European soil, regardless of where they came or when they came. Roma, African, Indian, Turkish, Semitic or other. If they are not of our people, but live in our lands, they must be removed.

Where they are removed to is not our concern, or responsibility. Our lands are not their home, they can return to their own lands or found their homelands elsewhere. But they will not occupy our soil.

How they are removed is irrelevant, peacefully, forcefully, happily, violently or diplomatically. They must be removed.

Until these interlopers are repatriated to their peoples lands, then Europe has no true sovereignty, and anyone, no matter their ethnicity or beliefs can call Europe their own.

REMOVE THE INVADERS, RETAKE EUROPE

You wait for a signal, whilst your people wait for YOU

Whilst you wait for a sign; a signal; someone to take up the spear; to cry out in alarm, your people wait on YOU. You are the voice, you are the klaxon call, you hold the first spear to be thrust at the invaders.

Stop waiting for someone else to show you the way forward, YOU are the way forward, waiting around for someone to start the fight is moronic, because it is YOU that is going to start the fight, If you are reading this, you are the new leaders that will push our people to victory, you are the soldiers that will fight for the future of your race. The people speaking now, acting now, fighting now, are the vanguard of the vanguard of the force of the people.

Lead and your people will follow. Show the strength of your convictions, the truth of yours and the iron-hard strength of your will and they will follow.

YOU WAIT FOR A SIGNAL, WHILE YOUR PEOPLE WAIT FOR YOU

It is never wise to become a minority group

In every country, on every continent, those that are in the minority are oppressed. If you become a social, political or ethnic minority it will always lead to your oppression.

Whether they are a political minority and therefore lose the control of the majority of power, and thus lose control of the laws and regulations that define public life or those that are the cultural minority find that art in all its forms is created and controlled by a different audience, from a different people from a different history, with differing ideals and experiences and therefore they find themselves isolated, excluded and removed from the creation of contemporary culture.

Those that find themselves born linguistically in the minority suffer daily, as the conversation of life excludes them, the mass media isolates them and businesses turn them away, as does the society's speech itself.

Finally there are those that find themselves in the ethnic or racial minority and find their very own genes being bred out of existence through miscegenation and differing racial birth

rates. The same people will find themselves gradually less and less represented both politically and culturally, becoming essentially foreigners in their own lands.

MINORITIES ARE NEVER TREATED WELL, DO NOT BECOME ONE

Do not allow your enemies to grow unchecked

When you discover a nest of vipers in your yard, do you spare the adolescents? Do you allow them to grow freely, openly, to one day bite your child as they play in their own yard? No. You burn the nest and kill the vipers, no matter their age.

The enemies of our children are being born in our lands right now, even as you read this. These same children will one day become teens, then adults, voting against the wishes of our people, practicing the cultural and religious practices of the invaders, taking our peoples lands, work, houses and even attacking and killing our children.

An ounce of prevention is worth a pound of cure. Preventing these enemies from reaching adulthood and their full potential of effect is of importance. Why make your children fight, when you could fight in their stead?

Few parents, regardless of circumstance, will willingly risk the lives of their children, no matter the economic incentives. Therefore, once we show them the risk of bringing their offspring to our soil, they will avoid our lands.

It will be distasteful, it will be damaging to the soul, but know that it is necessary and any invader you spare, no matter the age, will one day be an enemy your people must face. Better for you to face them now then your kin to face them in the future.

LEAVE NO VIPERS NEST UNBURNT

Support your brother nations

When one country moves, you move with them, support them financially, politically, socially and physically. They may be able to discredit one small movement, from one nation. But when Europeans from all countries and continents move to back their brothers, they cannot possibly attack any one group.

The movement may begin in Poland, Austria, France, Argentina, Australia, Canada or even Venezuela, but the movement will begin and when it does, be ready to throw your weight behind your people, with full force.

Support them economically, donate to their cause, buy products from their people, volunteer your resources and labor.

Support them socially, back their policies, attack their detractors, voice upon support to the media and in daily conversations, make it understood on the internet that all European nations support them.

Support them politically, voice support of their leaders, their ideals and their people. Lobby those in power to show your support, protest outside embassies of those nations that do not support the nation, and if need be attack them. Only elect leaders that show support to your brother nation.

Support them physically, be ready to put boots on the ground, send them weapons and munitions, and attack their enemies. If the media or state in your region attacks them, destroy the corporation and traitorous politicians responsible. Physical force is the ultimate form of support.

MOVE AS ONE, FULL SUPPORT FOR BROTHER NATIONS

Accept death, embrace infamy

Death is certain, you may die in service to some grand crusade or pass away in a hospice, either way you will die.

What matters is your actions during the brief time between birth and death. The worth of your life is not measured by the length of your life, but your actions during it.

Ask yourself now, are you willing to shirk your racial responsibilities? Turn your back to your people? Ignore their demise? All in the hopes of a peaceful death?

Accept death: as it is as certain as the setting of the sun at evenfall. Only when you embrace death and the only thing you will have left to fear is inaction.

Embrace infamy: the enemies of your people will beset upon you, on all sides. The media will paint you as villains, the state will name you as traitors, the globalist forces will name you as criminals and the traitors amongst your people will name you as enemies. You will be infamous until victory is achieved. Take it with a smile.

ACCEPT DEATH, EMBRACE INFAMY, ACHIEVE VICTORY

Numbers aren't everything

In 2022, we currently have the largest number of people of our race in history (between 760-980 million depending on definitions), yet we are losing even our smallest towns to ethnic replacement.

Numbers aren't everything, ten lions are worth a thousand sheep. The reason we are currently losing our lands is not due to a lack of numbers, or wealth, or military force. It is due to a lack of will.

We could deport or otherwise destroy the entire population of invading non-Europeans in a week, if we as a race we chose to. We have the ability, we only need the will.

Focusing on increasing the population of whites, or trying to gain economic wealth or military might, whilst already having met the requirement of numbers, wealth and military force needed is simply a stalling tactic, spoken and put forth by men too cowardly to do what is required.

These men would stall and delay any action indefinitely, until all necessary action has been undertaken by some other, more courageous man. All so they need not carry any personal risk or struggle themselves.

Ignore the naysayers and weasels who will always repeat "Not Now! Just Wait! Not Yet! We Could Be Hurt!" for them the time will never come. Just as their own courage will never flower forth.

THE BEST TIME FOR ATTACK WAS YESTERDAY, THE SECOND BEST TIME IS NOW

The birth rates must eventually be addressed, at all costs

Even if all invaders are deported tomorrow and all traitors are dealt with as they truly deserve, we are still living on borrowed time.

Whether it takes ten years or a thousand years, whilst we are facing birth rates at sub-replacement levels, then our people are dying.

We grow older, fewer, weaker and more fundamentally closer to true death the longer we allow our birth rates to remain so catastrophically low.

This isn't an issue that is being faced solely by our own people, but by many people across the world. Nations across Asia, Europe and the Americas are facing this disaster together. Some are at different stages than others but all are feeling the pressure.

The true question is, how did this happen? And what can we do to stop it? The only people that seemingly do not face such issues are those with strong traditions, gender norms, societal norms; the poor and the religious, usually a combination of all. This should give us an indication of what may be truly at the heart of the issue.

What can we do to fix it? The issue is complicated, far more complicated and it is more difficult to fix than the issue of Ethnic replacement. Likely a new society will need to be created with a much greater focus on family values, gender and social norms and the value and importance of nature, culture and race.

WITHOUT CHILDREN, THERE IS NO FUTURE

There is no democratic solution

Understand here and now, there is no democratic solution, any attempt to vote your way out of Ethnic replacement will be met with at first with derision, then contempt and finally by force.

This solution of a Democratic salvation is nothing but a pipe dream, and as our enemies increase within our lands, driven by mass immigration and the invaders own higher birth rate it will be pushed further and further into the realms of impossibility.

The media of the world will be used against you, the education system of the rulers will be used against you, the financial power of the worlds corporations will be used against you, the military and legislative might of the UN, the EU and NATO itself will be used against you and even your own, previously corrupted, religious leaders will be used against you.

Democracy is mob rule and the mob itself is ruled by our own enemies. The global and corporate run press controls them, the education system (long since fallen to the long march through the institutions committed by the marxists) controls them, the state(long since heavily lost to its corporate backers) controls them and the anti-white media machine controls them.

Do not suffer under the delusion of a democratic victory, prepare for war, prepare for violence and prepare for risk, loss and struggle, as it is the only path to victory.

VOTING IS MOB RULE AND MOB RULE IS MEDIA RULE AND MEDIA RULE IS CORPORATE RULE

NGOs are directly involved in the genocide of the European people

Beholden to no one and hiding their true intent behold a faux-religious facade, these NGO groups ferry the invaders to European shores aboard their own vessels, directly shipping this vast army straight into European nations to plunder, rape and ethnically displace the native European people.

Meanwhile they badger, trick and guilt-shame the European people into forfeiting their own hard earned income and giving it directly to their peoples cultural and ethnic competitors, many of which have the only intent of conquering and destroying the European peoples.

This stripping of wealth and prosperity in order to feed and develop our cultural competitors is an act of civilization terrorism resulting in the reduction in development and living conditions of our own people for the benefit of those that hate us.

More often than not these NGOs hide their true intentions behind a facade of religiosity and only once you investigate into the leadership and governance of the NGO itself do you find the people running the show are in fact far from religious themselves and more often than not are actually atheistic cultural marxists using naive Christian Europeans to both labor and fund their own attempt at class and racial warfare.

These NGOs are the modern money changers inside the church, and must be driven out, by voice or by whip. It may upset many, but the truth of the matter is these people are directly responsible for the current invasion and sacking of Europe and their treachery has damaged European prospects greatly.

Crush these traitor NGOs, kill their leadership, burn down their buildings, bomb their ships, tear down their posters and destroy their membership. Drive them from your lands and give the traitors what traitors deserve: a traitor's death.

NGOs ARE TRAITOR ORGANIZATIONS

If you lose, history will write you as monsters, regardless of your tactics. Win first, write the narrative later.

Victors write the history and the writers of history control the cultural climate of the present time.

If you lose, no matter how you acted in your loss; whether that is heroically, cowardly, violently, peacefully, virtuously or criminally, if your enemies are writing the history they will describe you as a devil.

Do not fret on the manner of how victory is achieved, all methods are possible, in the face of ethnic genocide, all morality is ambiguous.

Win first, write the story later. An act, which morals you doubt in the present, will be right by your people in wonder and admiration in the books of history.

YOU WILL BE REVERED, BUT ONLY IF YOU WIN.

When anyone can be a German, a Brit, a Frenchmen, then being European has truly lost all meaning

Make no mistake, the erosion of local and national identity has not come about by accident, it is a concerted and targeted effort against the European people.

The idea that a Frenchmen need not speak the language, share the culture, believe in the same god or even more importantly be ethnically French is ludicrous in the extreme. This is an attack on the very French people themselves and is a strategy designed to destroy national, cultural, linguistic and ethnic unity.

This is a tactic practiced not only on the French people, but on all the peoples of Europe, effectively destroying the nation's identity at its core and smashing apart all bonds which a successful, unified nation is built upon.

A Moroccan may never be an Estonian much the same as an Estonian may never be a Moroccan. There are cultural, ethnic and RACIAL differences that make interchanging one ethnic group with another an impossibility.

The idea that all it takes for a Han Chinese man to become German is to be born on German soil is as insane as a German born on Mars becoming a Martian.

Europe is only Europe because of its combined genetic, cultural and linguistic heritage. When non-Europeans are considered European, then there is no Europe at all.

EUROPE'S VALUE IS IN THE EUROPEAN PEOPLE

The time after the baby boomers have passed isn't the time to START acting, but the time we should be FINISHING our victory.

It is understood by many that the only real reason that many statistics of our ethnic replacement haven't yet matched with our reality is that numbers are currently buoyed by the baby boomer generation.

As these baby boomers pass on and leave us behind, there will be a rapid and obvious change in the demographic makeup of our nations, both statistically and socially. This rapid change in demography will bring about a time of crisis, as the reality of our possible ethnic replacement becomes obvious to all, even the naysayers. This time cannot be relied on for a beginning of the rebellion, only utilized as a final stage of energy and escalation to finalize our capture of power.

If we wait until the majority of the boomers begin to pass (between 2028-2038 depending on individual nations and life expectancies) then it will be too little, too late. As by this time the invaders and occupiers of lands, non-Europeans, numbers will swollen to a staggering size, due to both mass immigration and the differing birthrates between the native European people and these invaders.

Also, relying on this time period for our victory holds a second major disadvantage, that being vulnerability to foreign invasion, most likely from the east, specifically China; Turkey; India or some combination of the three. This time of possible instability will also be at a time where our potential nation enemies in the East will be reaching their own zeniths of power. We

must not be in a chaotic, life or death civil war at a time when our rival nations are at their peak of dominance. The risk is too great.

We attack as soon as possible, we attack with force and we achieve stability and play defense as the boomers pass, not during their passing, not after.

VICTORY CANNOT WAIT, YOUR PEOPLE NEED YOU NOW!

From where great leaders arise

The men and women needed by a society in crisis are created by a greater societal group though, they arise from their environment, from their folk, seeming springing forth from the people as if they were waiting for the moment. They are not so much born as made to be what is needed of them by the greater group thought occurring around them.

These leaders will be paragon examples of your people, virtuous, incorruptible, speaking truth to power and a truth that resonates with your very soul.

WHEN YOU SEE THEM; WHEN YOU HEAR THEM; YOU WILL KNOW THEM, AS THEY ARE YOU, AND YOURS

Do nothing, win nothing, achieve nothing

Inaction will lead to sure defeat. Sitting at home comfortably, relaxed, posting on the internet, watching football and waiting for victory to arrive at your feet, will win you nothing.

Without overwhelming effort and extreme risk, expect nothing.

You cannot expect others to take the risks for you, nor should you wish for others to labor for you, if you are unwilling.

The only option for a true man or woman of Europe is to labor, labor with all effort towards victory. Nothing else will do. All else is insufficient. All else is intolerable. All else is dishonorable.

Perhaps you could tap out, lay down, lick the boots of your occupiers and pray they will let you be comfortable, if only for a little while.

But you won't. You can't. Not if you know what I know and want for what we want.

You will risk, struggle, strive, drive, stumble, fall, crawl, charge and perspire, all in the name of victory. Because you cannot accept anything less.

WITH RISK COMES POSSIBILITIES, WITH POSSIBILITIES COMES CHANCE FOR VICTORY

Destabilization and accelerationism: tactics for victory

True change and the change we need to enact only arises in the great crucible of crisis. A gradual change is never going to achieve victory.

Stability and comfort are the enemies of revolutionary change.

Therefore we must destabilize and discomfort society wherever possible.

A political candidate that keeps the status quo or only seeks to introduce minimal change, even when the minimal change is in support of our cause, is ultimately useless or even damaging. Revolutionary change is needed and above all necessary.

It is far better to encourage radical, violent change regardless of its origins. As only in times of radical change and social discomfort can great and terrific change occur.

These tumultuous times can be brought about through action. For example, actions such as voting for political candidates that radically change or challenge entrenched systems, radicalizing public discourse by both supporting, attacking, vilifying, radicalizing and exaggerating all societal conflicts and attacking or even assassinating weak or less radical leaders/influencers on either side of social conflicts.

A vote for a radical candidate that opposes your values and incites agitation or anxiety in your own people works far more in your favor than a vote for a milquetoast political candidate that has no ability or wish to enact radical change.

Canvas public areas in support of radical positions, even if they are not your own.

Incite conflict. Place posters near public parks calling for sharia law, then in the next week place posters over such posters calling for the expulsion of all immigrants, repeat in every area of public life until the crisis arises.

Destabilize, then take control. If we want to radically and fundamentally change society, then we need to radicalize society as much as possible.

DO NOT FEAR CHANGE, WE ARE CHANGE

Globalized capitalist markets are the enemy of racial autonomists

If an ethnocentric European future is to be achieved global free markets and the trade of goods is to be discouraged at all costs.

An environmentally conscious and moral society will never be able to economically compete with a society based on ever increasing industrialization, urbanization, industrial output and population increase.

The cheaper labor and ignorance of environmental health will always result in cheaper goods produced with less effort and inevitably result in control of the market.

A Europe of nature, culture and sustainable living practices will not be able to ever compete in the global market.

The global market thus never be allowed to compete in the new European market. Barring the importation of all goods produced outside the New European zone (the new Western world) is an essential pillar of the future Western economy.

Goods produced without care for the natural world, dignity of workers, lasting culture or or white civilizations' future should never be allowed into the new morally focused and ethically focused European market.

CHEAP LABOR AND ALL CONSUMING INDUSTRY ARE NOT IDEALS, BLOCK FOREIGN GOODS FROM WHITE MARKETS

Break the back of cheap labor

Make no mistake, the major impetus for the mass importation of non-Europeans into Europe are the call and want for cheap labor. Nothing drives the invasion more and nothing needs to be defeated more than the greed that demands cheap labor.

Break it's back, anyway you can.

Whether that is by encouraging and pushing increases to the minimum wage; furthering the unionization of workers; increasing the native birthrate and thereby reducing the need for the importation of labor; increasing the rights of workers; pushing for the increase in automation or advancement of industrial labor replacement or any other tactic that is available.

In the end human greed and the need for increasing profit margins of capital owners need to be fought against and broken.

CHEAP LABOR IS SLAVE LABOUR, REFUSE TO IMPORT MODERN SLAVES

A boil over in the melting pot

Civil war in the so-called "Melting pot" that is the United States should be a major aim in overthrowing the global power structure and the Wests' egalitarian, individualist, globalist dominant culture.

In the United States, perhaps more than anywhere else in the world, the cult of the individual has been practiced for the longest time and with the deepest devotion.

Luckily for us, the end results of this deracialized, irreligious and deculturized program show themselves.

The United States is in turmoil, more so than at any other time in history. States hate other states, the electoral college is under attack at every turn and the races are at each other's throats. On top of this is a two party political system, split by racial, social, cultural, linguistic and class divides.

The end result is a nation in gridlock, unable to respond to any great change, unable to commit to any great projects. A political and social stalemate that makes any advancement impossible.

Meanwhile the 10000 ton boulder of demographic change rolls ever forward, gaining momentum and possibly destroying all in its path. Eventually, when the White population of the USA realizes the truth of the situation, war will erupt. Soon the replacement of the whites within Texas will hit its apogee and with the non-white political and social control of Texas; and with this control, the electoral college will be heavily stacked in favor of a democratic victory so that every electoral cycle will be a certainty.

After an election cycle or two with certain Democratic victory, those remaining, non democratic voting, non brainwashed whites will see the future clear before them, and with this knowledge realize the impossibility of a diplomatic or political victory.

Within a short time regular and widespread political, social and racial violence will commence. In this tempest of conflict is where will be strike, a strong, unified, ethnically and culturally focused pro-white, pro-european group will be everything the average white family

needs and long for. With these boosted numbers, and with our unified forces, complete control of the United States will be possible. Above all, be ready for violence, and when the time comes, strike hard and fast.

THE MYTH OF THE MELTING POT MUST END, AND WITH IT THE MYTH OF THE EGALITARIAN NATION

No taxes to anti-white states

Until our nations are run by men and women loyal to our cause, taxation should be considered theft, and refusal to pay taxes a sign of racial loyalty.

Giving your own earned wealth, which you received through your own labor, to a person or group that despises you, places laws into effect that disenfranchises your people and seeks to ethnically replace you is utterly foolish. Do not pay to have your people destroyed, do not line the pockets of the traitors within our ranks, don't lend support to a corrupt and broken state.

Refuse to pay taxes. Refuse. Do whatever you can to prevent them from stealing your hard earned resources.

Pay farmers directly for food. Shop at local stores and buy from others that also refuse to pay taxes. Go to flea markets and pay for items there.

When they demand you pay, refuse. When they ask why, you tell them why. They will threaten you with jail, they may even threaten you with direct force. They may even go through with your imprisonment or physically harm you. But eventually, when enough people fight back and refuse to pay taxes, refuse to fund the traitors in power, the state itself will wilt, then collapse.

So take the prison time, take the beating or even fight back. But do not pay taxes to anti-whites.

TAXATION IS THEFT IN A TRAITOROUS SYSTEM

Conclusion

There is only one victory, but many defeats.

To lose our lands, our culture and our people is a defeat.

To continue on without our culture, but still own our lands, is a defeat.

To survive with our culture, but to lose our lands, to lose our future, is a defeat.

There is only one victory.

The survival of our people, our culture and our lands isn't enough. We must thrive, we must march ever forward to our place among the stars and we WILL reach the destiny our people deserve.

Anything else is a defeat.

The war will not be easy, the death toll will assuredly be high. The going will be tough and many of us will die.

I cannot guarantee it will be comfortable, I cannot guarantee it will be easy and I cannot guarantee that every act will be a success.

All I can guarantee is that inaction is sure defeat, power structures will be tested and likely will fall and most of all there is only the future ahead and attempting to march back to any earlier time will get you nowhere at all.

You may stumble. You may fall. But the only way to get to the final destination, total victory, is to get up and keep marching forward. No matter what. March.

Mistakes will be made, losses will be had, some failures are certain and some endeavors will go bad.

But in the end the struggle is a beauty in itself, and the victory will be all the sweeter because of it. Final victory is yours, if you have the will for it.

As for me, my time has come. I cannot guarantee my success. All I know is the certainty of my will and the necessity of my cause. Live or die, know I did it all for you; my friends, my family, my people, my culture, my race.

Goodbye, God bless you all and I hope to see you in Valhalla.
